

America's Boating Course 2005 Edition

Fellow Auxiliaries:

America's Boating course has received approval by NASBLA (National Association of State Boating Law Administrators) for another 3 years. This process has resulted in some additions and deletions and a new edition dated 2005.

The new PPT slides for the 2005 ABC book are now available. The power point slides and the instructor notes utilize the facilitate techniques of the the 2005 IT workshop. Earlier versions of the PPT slides are not to be used with the 2005 edition books because they do not include some new required topics.

The new PPT presentations, also, include new sets of instructor notes that are seen below the slides. The instructor notes are, also, furnished in Microsoft word that can be printed out.

NASBLA requires state specific boating laws to be taught in the course. District 13 flotillas need to insert their specific state laws. Add, delete, or change what is needed to meet your state's requirements. You may make changes to include boating safety education information for your area.

Please take time to view all of the files on this CD.

The new presentation for ABC has a different approach. Time will be needed to plan your new ABC class using facilitation techniques.

Included on this disk:

1. The original 2005 PPT presentation from National Auxiliary PE Dept. for ABC.
2. The original 2005 instructors notes in Microsoft word from National Auxiliary PE Dept.
3. Modified 2005 PPT D 13 version
4. Microsoft notes for D 13 version
5. Overhead slides for D 13 version
6. Sample lesson plans for D 13 version divided into time blocks
7. Outline with NASBLA required topics (standards)
8. NASBLA standards
9. Samples of teaching aids & strategies

(The modified versions are to be used with the teaching kit especially when teaching the PFD information.)
